Sep 10, 2019 Substance B2M 3.2 Crack is a world's leading product for Substance and one of the world's first commercially available real time graphics. Jul 21, 2019 Substance B2M3 Designer 1.2.1 Crack + Free Download direct from the developer's site. It's highly recommended to use the '.Q: Question about combining multiple lines into one I'm working on a school project, and I have come to a stage where I'm stuck. A picture will help explain what I'm doing, I think? I want to create an animation like this: The idea is that a tree grows from the top row, gets as far as the middle, then starts growing from the bottom row. (It needs to keep growing from the bottom row, because sometimes in my program the tree will grow inwards from the roots, and I want it to keep growing towards the middle for further points in the animation). The code I have so far is: #triangle_animation{ width:200px; height:200px; animation:move_triangle_top_down 3s steps(12) infinite; background-image:url('triangle_tree.png'); background-position: center; background-size:300px 100px; } @keyframes move_triangle_top_down{ 0%{ background-position: 0px 200px; height:200px; } 100%{ background-position: -200px 200px; height:0px; } } Which is causing my page to resize and load slow as it's trying to load the image 300 times smaller than the screen. I thought I would just combine the two lines to make one second line, so it looked the same for both lines, but it doesn't work. Is there any way to combine the two lines into one line? A: Do this: #triangle_animation{ width:200px; height:200px; animation f678ea9f9e
